## Profile

I am a developer who strives to create relevant experiences, focusing on design environments where both the end-user and my client will benefit. My background centers around my passion for knowledge, an infinity to constantly see the world as micro interactions, and a desire on crafting strategies based on these observations.

---

Team Building

---

## Projects

### Tutorius - Angular App

-4 day team project providing an MVP based on an educational component. This Angular app provides instruction & interaction to help understand binary trees.  
-HTML5, CSS3, Angular, JavaScript, Git, Kanban, Personas, Wireframes, User Workflows  
*Highlights:* project leadership & team building with 3 JS Devs & 2 UX Devs. Front end to backend integration with Angular, complete Git workflow, MVP/5days/67hours

### Quick\*Note - Web App

-A place to take notes, on and off-line, regardless of the device or locally installed system fonts. Takes advantage of HTML5's ability to store content locally on device.  
-HTML5, CSS, Local Storage, AppCache, Git, JavaScript, jQuery  
*Highlights:* small team, Git workflow, GitHub management, deploying online

### Background Image Clip - File API

-Uploader that clips the image into the hidden text, creating a graphic design poster like effect that can be replaced again and again with each new upload.  
-HTML5, CSS3, Local Storage, AppCache, Git, JavaScript, DOM manipulation  
*Highlights:* working with an API and understanding key value pairs, using Git

---

## Experience

### Creative, Apple Inc Bellevue, Wa 2011-2014

Teacher for Apple Retail, trainer of Apple technology with our One to One members.  
*Highlights:* intensive training at Apple, Cupertino 2012. Effective strategies to present complex ideas to both large groups and individuals in a atmosphere of learning.

### Full Time Student, LWIT Kirkland, Wa 2009-2013

-Multi Media Design Program, focusing on Video and Web Production  
-Bachelors of Technology in Applied Design  
*Highlights:* becoming an avid learner, focusing in media production, web technologies, design thinking, design strategy, and project presentation & leadership.

---
